CHIP

What is the CHIP program?

CHIP is short for the Children's Health Insurance Program - Pennsylvania's program to provide health insurance to all uninsured children and teens who are not eligible for or enrolled in Medical Assistance. There are a lot of reasons kids might not have health insurance - maybe their parents lost a job, don't have health insurance at work or maybe it just costs too much. Whatever the reason, CHIP may be able to help.

How do I know if my child qualifies?*

Based on your family size and income, your child or teen may be eligible if he or she meets the following requirements:

- Under 19 years of age

- A U.S. Citizen, U.S. National or Qualified Alien
- A resident of Pennsylvania
- Uninsured and not eligible for Medical Assistance

You can also review the complete CHIP income guidelines to learn about all aspects of the program which is also available online.

** All new applicants whose income falls in the low-cost and at-cost CHIP ranges must also show that the child(ren) has been uninsured for six months, unless the child is under the age of two, the child has lost health insurance because a parent lost their job or the child is moving from another public insurance program. At-cost CHIP families must also show that access to coverage is unavailable and affordable.*

What are the benefits?

With CHIP, your children are guaranteed to receive comprehensive insurance coverage, including:

- Immunizations
 - Routine check-ups
 - Prescription drugs
 - Dental care
 - Maternity care
 - Mental health benefits
 - Up to 90 days hospitalization/year
 - Durable medical equipment
 - Substance abuse treatment
 - Partial hospitalization for mental health services
 - Rehabilitation therapies
 - Home health care
-

What are the income guidelines for CHIP?

For many families, it's free. Families with higher incomes will pay low monthly premiums and co-pays for some services.
