

Performance Pathways Suite of Data Analysis Reporting Options

In reviewing this packet of reports, please remember they are only a small foundation of the reports possible within the Performance Pathways Suite. Users can tailor all reports with point and click options, easily including or excluding student groups (state mandated or district created) and filtering by building, teacher, class, grade, race, gender or individual student. In addition, many districts use the dynamic sub-grouping capability to address groups of students that represent any underlying characteristic such as tutoring, RTI Tier, attendance and/or transportation category as necessary. The narrative below each graphic will detail the report but also explain the sophisticated, layered drill down capability available in all graphical reports. How to get to Reports page: <https://sauconvalley-pa.perfplus12.com/home.aspx> Contact James.Colbert@svpanthers.org if you have forgotten User ID and Password

Step 1:
Sign on and select
Classes icon

The screenshot shows the Performance PLUS website interface. At the top, there is a navigation bar with the 'CLASSES' icon circled in red. Below the navigation bar, there is a 'Teacher List' and 'Teacher Classes' section. A dropdown menu for 'Classes from School Year' is set to '2010-11'. The teacher's name is 'Jim Deegan' and the teacher code is '6986752 (ID:295)'.

Step 2:
Locate and click on
Class Name

The screenshot shows a table of classes for teacher Amy Koziel (ID: 105). The 'Class Name' column is circled in red. The table has columns for 'Select', 'School Year', 'Class Name', 'School', 'Grade', 'Subject', 'Description', 'Students', 'Active?', and 'Edit'.

Select	School Year	Class Name	School	Grade	Subject	Description	Students	Active?	Edit
<input type="checkbox"/>	2010-11	Applied American Govt & Econ (HS0910-5)	Saucon Valley High School	Twelfth Grade	Social Studies		20	Yes	Edit Class
<input type="checkbox"/>	2010-11	Homeroom (HROOM-25)	Saucon Valley High School	Ninth Grade	UnSpecified		19	Yes	Edit Class
<input type="checkbox"/>	2010-11	Applied American Govt & Econ (HS0910-5)	Saucon Valley High School	Twelfth Grade	Social Studies		17	Yes	Edit Class
<input type="checkbox"/>	2010-11	Honors American Govt & Econ (HS0910-8)	Saucon Valley High School	Twelfth Grade	Social Studies		21	Yes	Edit Class

Step 3:
Select Run Report
and follow the
Generate Reports in
Performance Tracker
document.

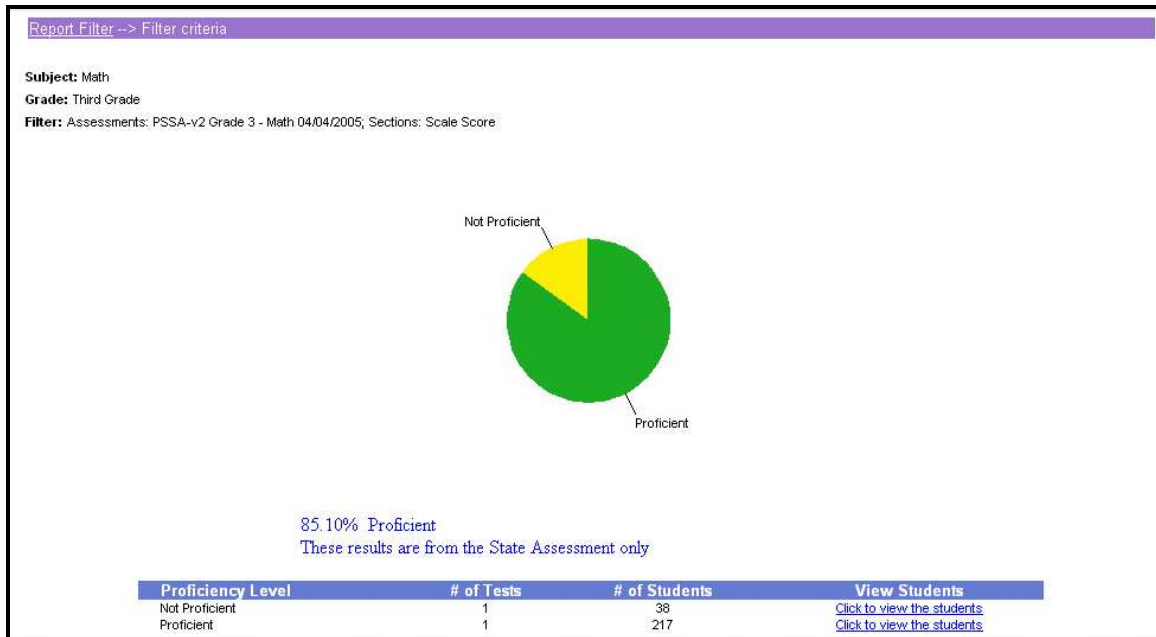

The screenshot shows the details for the class 'Applied American Govt & Econ (HS0910-5)'. The 'Run Report' button is circled in red. Below the class details, there is a table of students in the class.

Class Details:
Class Name: Applied American Govt & Econ (HS0910-5)
Class Code: HS0910-5352-5352-S1-5352-2011-549-HS0910-5
Description:
Grade: Twelfth Grade **Subject:** Social Studies
School: Saucon Valley High School **Room nbr:**
Begin Date: 8/30/2010 **End Date:**
School Year: 2010 **Active?:** Yes

Students in the Class:

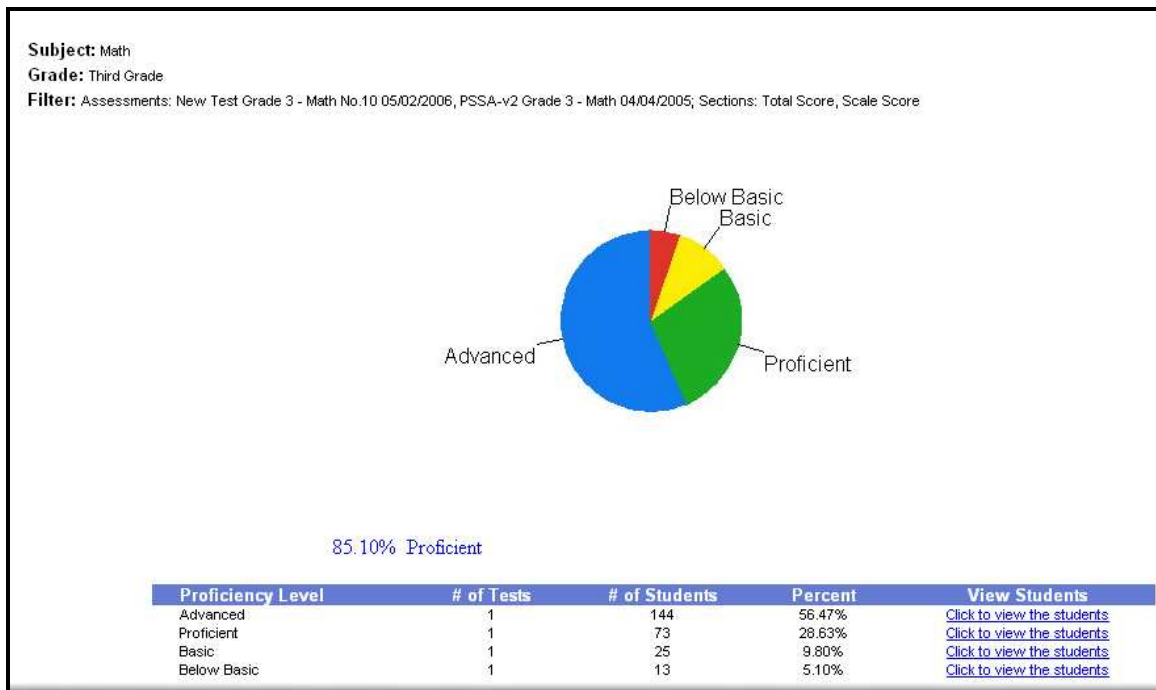

Select	Student Name	Student Code	Grade	Gender	S
<input type="checkbox"/>	Arnold, Kristina	10397	Twelfth Grade	Female	08
<input type="checkbox"/>	Borger, Kerry	101370	Twelfth Grade	Male	
<input type="checkbox"/>	Buchecker, Caitlin	11953	Twelfth Grade	Female	
<input type="checkbox"/>	Deschler, Derrick	11651	Twelfth Grade	Male	ABGM 09-10

Proficient vs. Not Proficient – Pie Chart

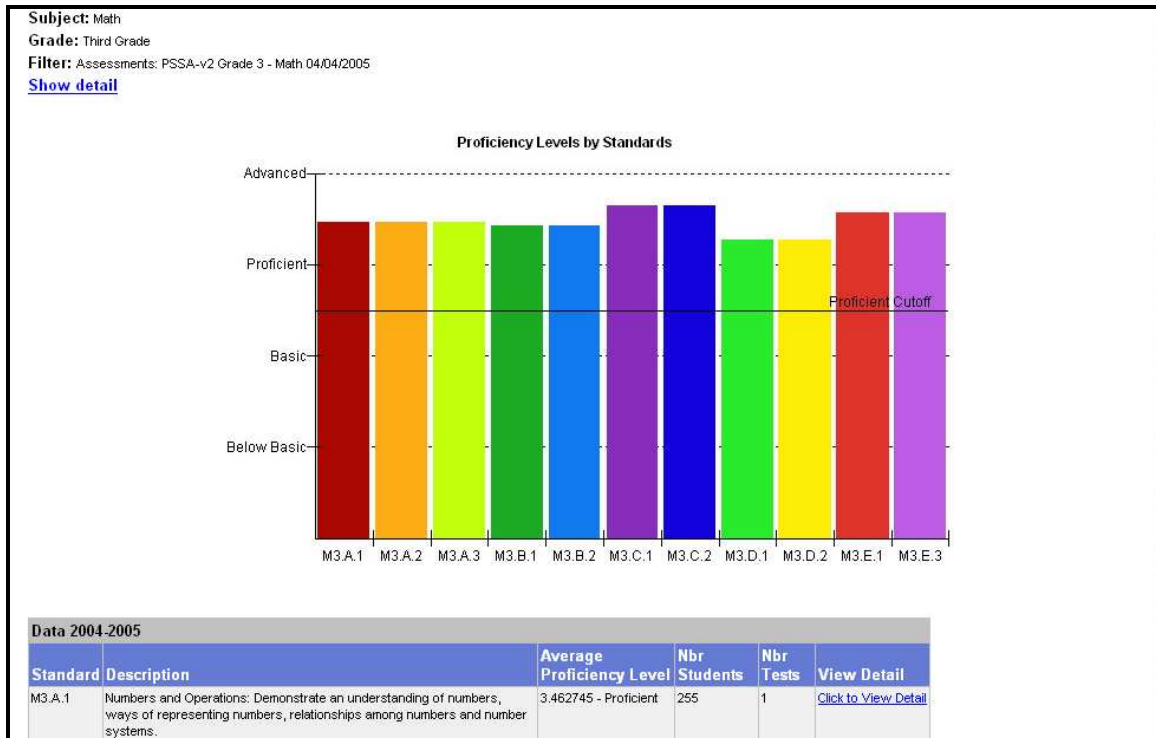

- Displays proficient and not proficient students in a pie chart for a given assessment(s).
- Click on the colored slices of the pie to see a list of students that fall into that proficiency category.
- Click on a student's name to reach their individual student portfolio.

Proficiency Level – Pie Chart

- Displays results using the same number of proficiency levels that your state assessment follows for a given assessment(s).
- Click on the colored slices of the pie to see a list of students that fall into that proficiency category.
- Click on a student's name to reach their individual student portfolio.

Standards – Level 1 Bar Chart

- Displays student achievement by standard/anchor.
- Click on a bar to see a pie chart for how the students performed on just that individual standard/anchor.
- Click on the colored slices of the pie to see a list of students that fall into that proficiency category.
- Below graph is a complete explanation of each standard/anchor with the average proficiency score.
- Click on a student's name to reach their individual student portfolio.

Standards – Level 1- Proficiency Detail

Subject: Math
Grade: Third Grade
Filter: Assessments: PSSA-v2 Grade 3 - Math 04/04/2005

Advanced	1	156	61.18%	Click to view the students

M3.A.3 - Numbers and Operations: Compute accurately and fluently and make reasonable estimates.				
Proficiency Level	# of Tests	# of Students	Percent	View Students
Below Basic	1	9	3.53%	Click to view the students
Basic	1	20	7.84%	Click to view the students
Proficient	1	70	27.45%	Click to view the students
Advanced	1	156	61.18%	Click to view the students

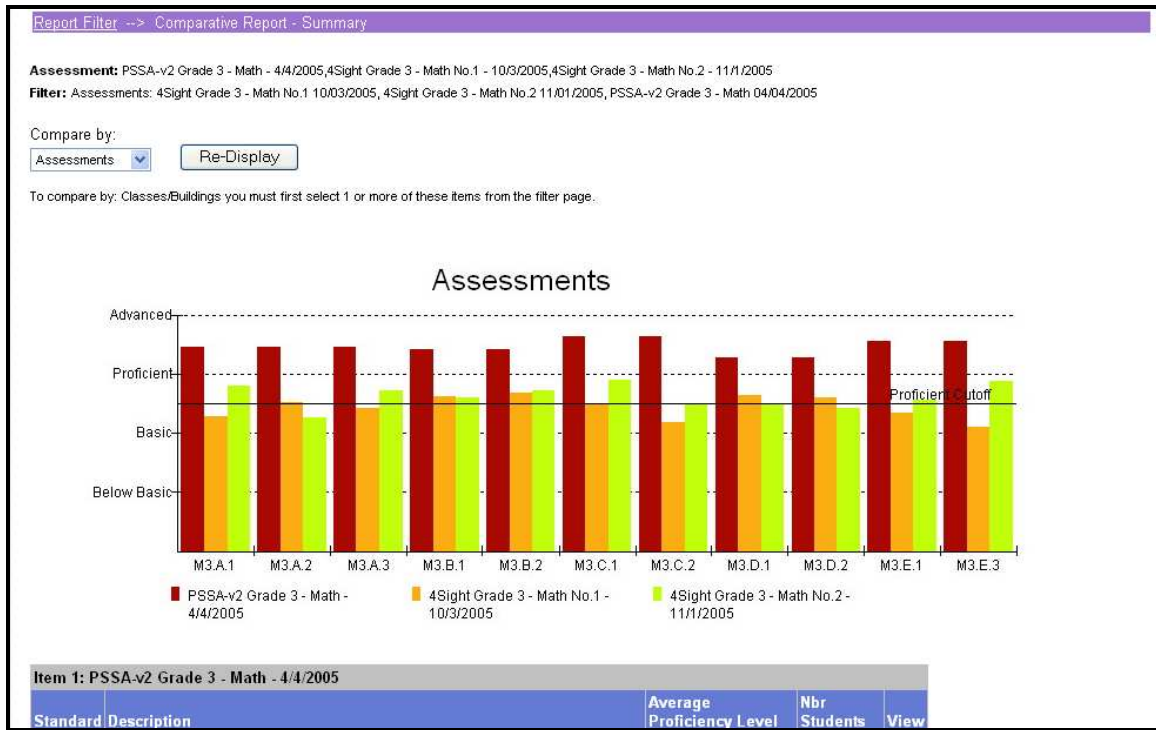

- Displays how students performed on a given standard in a table format.
- Click the individual standard/anchor to reach a pie chart that describes student performance on a particular standard/anchor.
- Click on any colored slices of the pie to see a list of students that fall into that proficiency category.
- Click to view students to see the list of students that fall into that proficiency category for that standard/anchor.
- Click on a student's name to reach his/her individual student portfolio.

Standards - Level 2 – Bar Chart

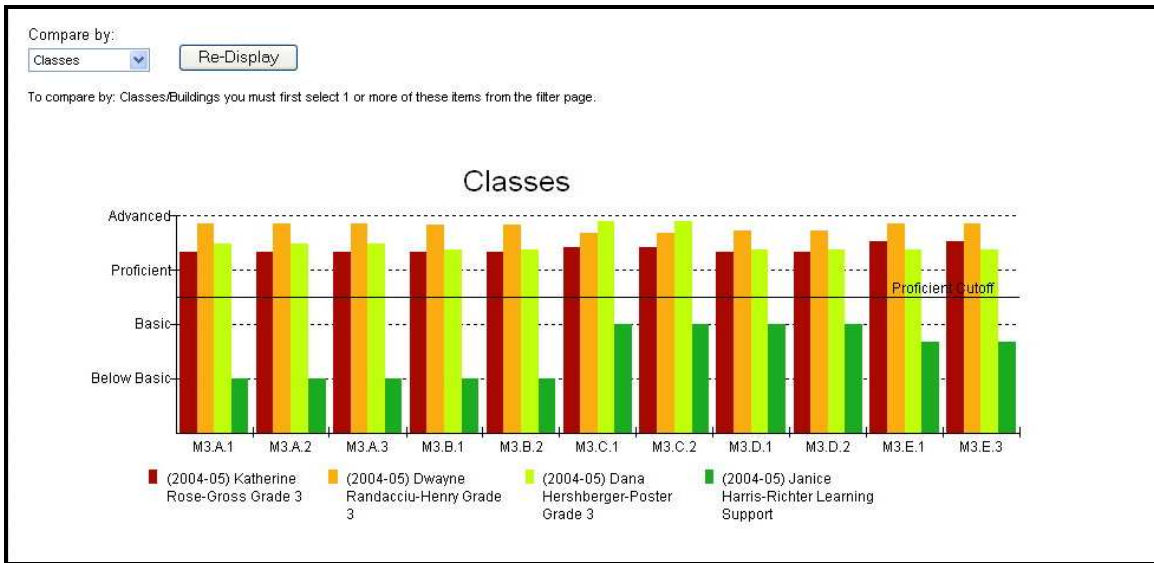

Item#	Standard	Description	Proficiency Level	Nbr Students	Nbr Tests	View Detail
1	M6.A.1.1	Express numbers in equivalent forms.	2.886925 - Proficient	283	1	Click to View Detail
2	M6.A.1.2	Compare quantities and/or magnitudes of numbers.	2.459363 - Basic	283	1	Click to View Detail
3	M6.A.1.3-OLD	Use or develop models to represent percents. (For 2006-2007, this has become M6.A.1.4)	2.844522 - Proficient	283	1	Click to View Detail
4	M6.A.1.4-OLD	Apply number theory concepts (i.e., factors, multiples).	2.349823 - Basic	283	1	Click to View Detail

Comparative Report – Standards

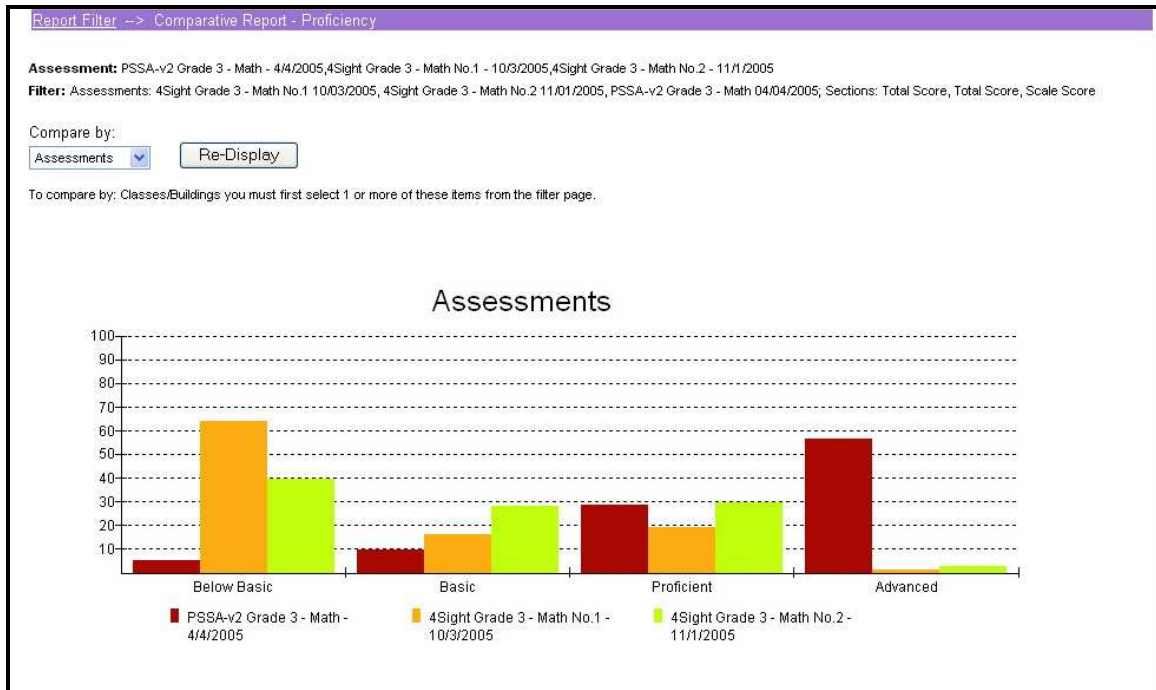

- Allows you to choose multiple assessments across multiple years to run on the same report.
- You can mix national, state, and local assessments.
- Click on any colored bar to drill down further on that individual standard for that particular assessment/year.
- Click on any colored slice of the pie to see a list of students that fall into that proficiency category.

Comparative Report – by Building, Class, Subgroup or Teacher

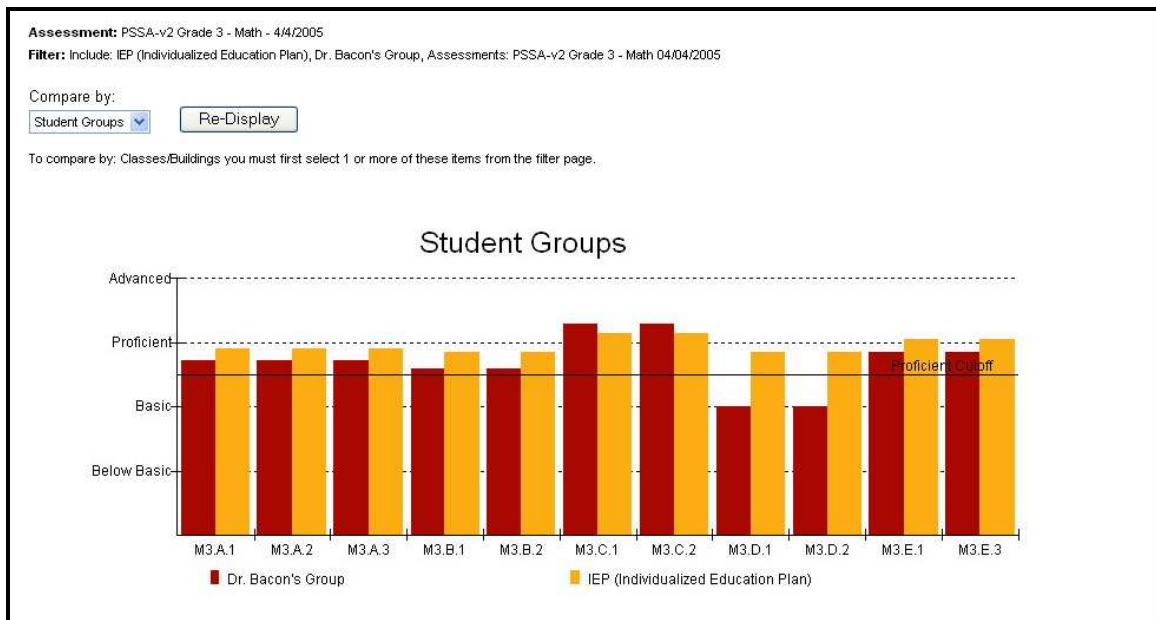

- Allows you to choose multiple buildings, teachers, subgroups or classes to run on the same report. Great analysis tool to compare individual classroom or building level performance.
- Click on any colored bar to drill down further on that individual standard for that particular building, class, subgroup or teacher.
- Click on any colored slice of the pie to see a list of students that fall into that proficiency category.

Comparative Report – Proficiency Levels

- Allows you to compare proficiency levels for groups of students on multiple assessments across multiple years.
- You can mix national, state, and local assessments.
- Click on any colored bar to drill down further on that individual standard for that particular assessment/year.
- Click on a particular student to reach their student portfolio.

Comparative Report – Proficiency Levels by Subgroups, Buildings, Classes or Teachers

- Allows you to compare proficiency levels for groups of students, buildings, classes, teachers.
- Click on any colored bar to drill down further on that individual standard for that particular assessment/year.
- Click on a particular student to reach their student portfolio.

Code	Description	Nbr of Tests
M8.A.1	Numbers and Operations: Demonstrate an understanding of numbers, ways of representing numbers, relationships among numbers and number systems.	
M8.A.1.1	Represent numbers in equivalent forms. (Reference: 2.1.8.A, 2.1.8.B)	7
M8.A.1.2	Compare quantities or magnitudes of real numbers. (Reference: 2.1.8.C) OBSOLETE AS OF 2006-2007	2
M8.A.1.3	Apply number theory concepts. (Reference: 2.1.5.G) OBSOLETE AS OF 2006-2007	6
M8.A.2	Numbers and Operations: Understand the meanings of operations, use operations and understand how they relate to each other.	
M8.A.2.1	Complete calculations by applying the order of operations. (Reference: 2.2.8.A)	8
M8.A.2.2	Represent or solve problems using rates, ratios, proportions and/or percents. (Reference: 2.1.8.D, 2.3.8.B)	7
M8.A.3	Numbers and Operations: Compute accurately and fluently and make reasonable estimates.	
M8.A.3.1	Determine the appropriateness of overestimating, underestimating or calculating an exact answer in problem-solving situations. (Reference: 2.2.8.F)	6
M8.A.3.2	Use estimation strategies in problem-solving situations. (Reference: 2.2.8.D)	5
M8.A.3.3	Compute and/or explain operations with integers, fractions and/or decimals. (Reference: 2.2.8.B)	5

- Displays the number of times a given standard has been aligned for a given subject, grade, and year.
- This does not show you the number of times a standard has been assessed.
- Great report for making sure all standards are covered in various assessment options.

Mass Print Student Assessment Detail (PDF)

StudentID:	90206		
Student Name:	Ian ACKERMAN		
Assessment:	PSSA-v2 Grade 8 - Math 04/02/2005		
Section - Instructional Content	Max Score	Original Score	Performance Level
Scale Score - Scale Score	2300	1795	Advanced
A - Numbers and Operations - Demonstrate an understanding of numbers, ways of representing numbers, relationships among numbers and number systems. Understand the meanings of operations, use operations and understand how they relate to each other. Compute accurately and fluently and make reasonable estimates.	13	11	Advanced
B - Measurement - Demonstrate an understanding of measurable attributes of objects and figures, and the units, systems and processes of measurement. Apply appropriate techniques, tools and formulas to determine measurements.	10	10	Advanced
C - Geometry - Analyze characteristics and properties of two- and three-dimensional geometric shapes and demonstrate understanding of geometric relationships. Identify and/or apply concepts of transformations or symmetry. Locate points or describe relationships using the coordinate plane.	12	12	Advanced
D - Algebraic Concepts - Demonstrate an understanding of patterns, relations and functions. Represent and/or analyze mathematical situations using numbers, symbols, words, tables and/or graphs. Describe or use models to represent quantitative relationships.	19	19	Advanced
E - Data Analysis and Probability - Formulate or answer questions that can be addressed with data and/or organize, display, interpret or analyze data. Select and/or use appropriate statistical methods to analyze data. Understand and/or apply basic concepts of probability or outcomes. Develop and/or evaluate inferences and predictions or draw conclusions based on data or data displays.	12	11	Advanced

- This will open in Adobe and give one sheet per student detailing their performance on a given assessment.

18	Algebraic Concepts	1	C	Yes	65.89%
19	Numbers and Operations	1	A	Yes	43.48%

- Opens in Adobe and gives one sheet per student detailing their performance on a given assessment.
- Displays how the student did question by question, including the question text and correct answer.
- Report can also be run without the correct answer showing.
