LESSON 6

TEACHING MODEL

Evaluating Print Sources

The title page tells the title, the author, and, in some cases, the publisher.

Another page may list additional books by the same author.

The copyright page tells year of publication, address of publisher, and, here, the author’s credentials.

A dedication page may be included.

The Table of Contents states the topics covered.

The Foreword usually states the book’s purpose.

“In a Plains Village” is a text page from within the source.

The back cover may feature blurbs, or excerpts from reviews.

Farming tribes, such as the Mandan, Hidatsa, and Pawnee, lived in permanent villages of earth lodges.
