

Lights, Camera, Action: Perseverance!

Task 2: Exploring Perseverance in Science

Activity 4: Anticipate Reactions

Based on the dead-end cures you chose to include, what do you expect your audience will infer about rabies throughout the ages from viewing the preview?

Answers will vary; but should include something like the following:

For many years, scientific thought was led by superstition and guesswork; suspected causes of rabies varied wildly and were based on superstition and fear.
