Understanding Number Lines

Write the value of \( A, B, \) and \( C \) on each number line.

1. 

2. 

3. 

4. Texas became a state in 1845. Draw a point to show where 1845 is on the number line.

5. **Critique Reasoning** Lara said that point \( D \) has a value of 38. Is her statement reasonable? Explain your answer.

6. Which letter represents 57 on this number line?

\[ \text{A E B F C G D H} \]
