TRANSITION TO KINDERGARTEN

HOME | GETTING STARTED | EARLY LEARNING PROGRAMS | TRANSITION TO KINDERGARTEN

Transition to school is one of the most important steps in a young child's life. Children must learn to navigate academic, behavioral and social expectations that might be different from the expectations at home or in the early learning setting. Parents might feel discomfort and fear about sending their child into this new experience. Well planned, collaborative transition models build trust and relationships among children, families, teachers and the school community. Systematic strategies and common understanding of terms and approaches among stakeholders can increase the success of transition practices.

In this Transition toolkit, find the components of the Transition Into Formal School Toolkit.

#### **I. Transition to Formal School Toolkit Table of Contents**

#### **II. Best Practices Rubric Transition to Formal Schooling (Receiving)**

- [Transition to Formal Schooling, Best Practice Rubric \(Receiving\)](#)
- [Best Practice Rubric Action Plan, Sending Schools](#)

#### **III. Best Practices Rubric Transition to Formal Schooling (Sending)**

- [Transition to Formal Schooling, Best Practice Rubric \(Sending\)](#)
- [Best Practice Rubric Action Plan, Sending Schools](#)

#### **IV. Section: Overview of Transition (Management)**

- [Transition Overview](#)
- [Transition to Formal Schooling, Best Practice Rubric \(Receiving\) Worksheet](#)
- [Transition to Formal Schooling, Best Practice Rubric \(Sending\) Worksheet](#)
