SAS Institute 2026

Design. Lead. Flourish.

Cultivating Systems that Empower Leaders and Learners to Excel

December 6-9, 2026

Hershey Lodge & Convention Center

The 2026 SAS Institute brings Pennsylvania's educational leaders together for four days of purposeful learning designed to strengthen the systems and relationships that help people and organizations flourish.

Guided by the theme **Design. Lead. Flourish.**, the Institute opens with optional **Sunday Deep Dives** and a powerful **Monday storytelling experience** that elevates real examples of innovation and courageous leadership from across the Commonwealth.

Throughout the week, participants engage in timely sessions, collaborative design conversations, and the dynamic **ProAction Café**, where leaders surface challenges and co-create solutions with colleagues from across Pennsylvania. The Institute culminates in **Action Planning Labs**, dedicated spaces where teams map out next steps with support from IU leaders and PDE, ensuring ideas move from inspiration to implementation.

LEA Team of Three: Build Capacity, Reduce Costs

Educational leaders may register as an **LEA Team of Three**—three distinct levels within the LEA (e.g., an administrator, principal, and lead teacher)—and **receive one refunded registration** (refunded after the 90-day webinar). Teams commit to engaging fully in the Institute experience, including the ProAction Café, the Action Planning Labs, and a 90-day follow-up webinar, fostering cross-role collaboration and shared learning.

Registration opens September 16th at 8:00AM
