Alignment of Eligible Content: More than Just Content
The crosswalk below is designed to show the alignment between the PA Academic Standard Eligible Content and the PA Common Core Eligible Content. While content is in many cases similar, the key message is that PA Common Core focused instruction is more rigorous and will prepare students for upcoming PSSAs and future PA Common Core aligned PSSAs.

The defining element of the PA Common Core Standards is one of rigor. Barbara Blackburn elaborates on the concept of rigor when she states: “True rigor is creating an environment in which each student is expected to learn at high levels, each student is supported so he or she can learn at high levels, and each student demonstrates learning at high levels.”

Focus on PA Common Core
As instruction segues from the PA Academic Standards to the PA Common Core Standards, it is important to understand the need to prepare students for the current and upcoming PA CC-aligned PSSAs and to consider not only the content but the degree of rigor embraced by the new standards. The instructional shifts embrace increased reading of informational texts, growth in text complexity through the grades, focus on academic vocabulary, text dependent analysis, writing from sources, and literacy instruction in all content areas. The PA Common Core aligned Eligible Content statements reflect those shifts.

PA Common Core – Raising the Bar
Educators will note that the items developed to measure the new Assessment Anchors and Eligible Content (Common Core aligned AA/EC) will differ from the current PSSA items in both rigor and difficulty. This will be a direct result of the rigor of the new Assessment Anchors and Eligible Content where the average Depth of Knowledge (DOK) will be higher than the DOK of the existing PSSA Assessment Anchors and Eligible Content. As a result, educators should see items written at the higher cognitive levels (e.g., level 2 and level 3). However, that does not mean that a DOK level 1 item will not be found on the transitioned PSSA. For example, an item measuring math fluency is typically written at DOK level 1. For reading, there may be a vocabulary AA/EC that allows for an item to be written at DOK 1.

Regardless of the increased rigor of the items measuring the new Assessment Anchors and Eligible Content (Common Core aligned AA/EC), educators will also perceive the difficulty of the assessment to have increased.

Eye on the Standards
It is important to remember that while Assessment Anchors and Eligible Content provide the blueprint for the PSSA assessments, they are a reflection only of what can be assessed in large scale testing and do not reflect all of classroom instruction.

### Comprehension and Reading Skills

**Understand Fiction Appropriate to Grade Level – Vocabulary (PA Academic Standards)**

**Vocabulary Acquisition and Use (PA CC Standards)**

While both sets of Eligible Content statements focus on unlocking meaning of words, PA CC notes a variety of strategies: using context, Latin origins, word relationships, and connotations.

**R4.B.3.3.4** Identify, explain, compare, and/or interpret the sequence of steps in a list of directions.

**E04.B-K.1.1.3** Explain events, procedures, ideas, steps, or concepts in a historical, scientific, or technical text, including what happened and why, based on specific information in the text.

While PA Academic Standard Eligible Content focuses on sequence, PA CC Eligible Content moves to analysis of the structure of text.

**Additional PA Common Core Eligible Content**

**Not Addressed in PA Academic Standard Eligible Content**

In transitioning to PA Common Core and preparing students for the PSSAs, these specific statements will be assessed and should be explicitly addresses.
