GRADING BREAKDOWN:

50% = tests, quizzes, essays, projects, etc.

25% = homework

25% = class participation (Each student earns either a "plus" or "minus" for each day depending on his or her participation in class. Earn a plus by having necessary class materials, volunteering answers, reading aloud, and so forth. For each quarter, a student must receive fewer than

2 minuses for an A

4 minuses for a B

6 minuses for a C

8 minuses for a D

More than eight minuses for a grading period mean that a student has failed the class participation requirement.)
