Dual Language Learner Resources

The following list of dual language learner (DLL) resources was assembled by the Office of Child Development and Early Learning (OCDEL). A dual language learner (DLL) is a child between the age of 0 and 5 who is learning two (or more) languages at the same time or learning a second language while continuing to develop their first language. Children who are DLL come from homes where a language other than English is spoken.

In response to the Policy Statement on Supporting the Development of Children who are Dual Language Learners in Early Childhood Programs that was developed by the U.S. Departments of Health and Human Services and Education, OCDEL has partnered with WIDA to provide resources that provide guiding principles, research, and best practices for early learning professionals working with young dual language learners (DLL) and English language learners (ELL), their families, and their communities. WIDA advances academic language development and academic achievement for children and youth who are culturally and linguistically diverse through high quality standards, assessments, research, and professional learning for educators.

- **WIDA Concept Tool: A Language-Focused Approach to Planning Equitable Learning Opportunities**
  - Teachers can use this concept tool to explore a language-focused approach to planning. A language-focused approach to planning applies an equity and language lens to the design of active and engaging learning opportunities for young children.

- **WIDA Language-Focused Planning Tool: Annotated Guide**
  - Teachers can use the guiding questions in this annotated guide to familiarize themselves with the Language-Focused Planning Tool.

- **WIDA Language-Focused Planning Tool**
  - Teachers can use this tool to get started with a language-focused approach to planning equitable learning opportunities for multilingual children.
• **WIDA Early Years Can Do Descriptors**
  - The *Early Years Can Do Descriptors* provide examples of what dual language learners (DLLs) can do at various stages of language development. They can help educators interpret results from WIDA language development assessments and identify ways to design opportunities for DLLs’ meaningful participation in learning environments where the language of interaction is English.

• **PA English Language Development Standards & Performance Indicators**
  - This guidance document is designed to assist in effectively planning instruction and assessment for DLLs at varying degrees of proficiency levels and across content areas. The documents provide a Model Performance Indicator (MPI) for each of the four domains which is then broken down specific to content, grade cluster, and proficiency level. Each MPI is then aligned to the academic standards for grades Pre-K to 12.

• **ECLKC Dual Language Learner Toolkit**
  - This toolkit provides resources that can be used to support young children who are learning their home languages and English. It is divided into three sections: administrators and managers; teachers, caregivers, and family services staff; and families.

• **OCDEL Dual Language Learner Toolkit**
  - The DLL Tool Kit has been developed to provide research-based information, guidelines, and principles for early learning professionals to promote culturally competent practice. While it provides a broad range of information about young ELLs and their families, its primary purposes are:
    - To define cultural competence and proficiency
    - To describe second language acquisition
    - To unpack myths and realities about DLLs
    - To highlight research and best practices for educating and supporting young DLLs and their families
    - To outline strategies to build and sustain culturally competent and proficient early learning professionals and organizations.
PA Dual Language Learner Professional Development Offerings

To support local programs there are free online learning opportunities available through the PD Registry. The links to the self-paced learning opportunities are listed below:

- WIDA - Dual Language Learners and their Families
- WIDA - Early English Language Development Standards Framework
- WIDA - Dual Language Learners with Disabilities
- WIDA - Scaffolding Language Learning for Dual Language Learners
- WIDA - Promising Practices for Dual Language Learners
- WIDA Early Years Webinar Series (3 parts)

In addition, each Early Learning Resource Center (ELRC) region is connected to trainers who have received professional development in WIDA philosophy, tools, and resources. These trainers can support programs in need of more targeted training opportunities. You can find all available trainings within the training calendar on the PD Registry (www.papdregistry.org).
