Curriculum Mapping

Version 1.8, April 2012

This page is intentionally blank.

STANDARDS ALIGNED SYSTEM (SAS) IN PENNSYLVANIA

www.pdesas.org

The Pennsylvania Standards Aligned System (SAS) is a collaborative product of research and good practice that identifies six distinct elements which, if utilized together, will provide schools and districts a common framework for continuous school and district enhancement and improvement.

Much research has been conducted as to what makes a great school. There are many intangible components; however, research supports the notion that great schools and school systems tend to have six common elements that ensure student achievement: Standards, Assessments, Curriculum Framework, Instruction, Materials & Resources, and Safe & Supportive Schools.

Standards

Pennsylvania's Academic Standards define what students should know and be able to do as a result of instruction.

Curriculum Framework

The Curriculum Framework identifies the Big Ideas, Concepts, Competencies, Essential Questions, Key Vocabulary and Exemplars in each subject area.

- Big Ideas: Declarative statements that describe concepts that transcend grade levels. Big Ideas are essential to provide focus on specific content for all students.
- Concepts: Describe what students should know (key knowledge) as a result of this instruction specific to grade level.
- **Competencies:** Describe what students should be able to do, key skills, as a result of this instruction, specific to grade level.
- Essential Questions: Questions connected to the SAS framework and are specifically linked to the Big Ideas. They should frame student inquiry, promote critical thinking, and assist in learning transfer.
- Vocabulary: Key terminology linked to the Standards, Big Ideas, Concepts and Competencies in a specific content area and grade level.
- Exemplars: Performance tasks that can be used for assessment and instruction as well as professional development. An Exemplar is an example of student work that meets the identified criteria for the task. Exemplars provide educators with a concrete example of assessing students' understanding of the Big Ideas, Concepts and Competencies.

Materials and Resources

Materials and Resources support standards aligned instruction and include Voluntary Model Curriculum, learning progressions, units, lesson plans and multimedia content examples for use in planning and delivering instruction.

- Materials and Resources includes the Voluntary Model Curriculum (VMC) incorporating learning progressions, units, lesson plans, and content resources aligned to the Pennsylvania Standards in curriculum frameworks for the four major content areas (mathematics, science, social studies, readingwriting-speaking-listening).
- Learning progressions span grades K-12 and include what all students should know and be able to do as a result of successfully moving through grades K-8 and by taking specific courses in grades 9-12.

Assessment

Assessment offers tools and resources to support the process of assessing, evaluating and documenting student learning in order to improve professional practice and increase student achievement. Four types of assessments are defined in PA:

- Summative Assessment: Seeks to make an overall judgment of progress made at the end of a defined period of instruction.
- Formative Assessment: Defined as classroom-based assessments that allow teachers to monitor and adjust their instructional practices in order to meet the individual needs of their students.
- Diagnostic Assessment: Ascertains, prior to instruction, each student's strengths, weaknesses, knowledge, and skills.
- Benchmark Assessment: Measures achievement of important grade level content periodically during the year in order to provide feedback about how students.

Instruction

Instruction provides resources and interventions to facilitate achievement of the standards for all students.

Safe & Supportive Schools

Safe & Supportive Schools supplies resources and exemplars to promote active student engagement in a safe and positive learning environment. Areas within the element include the following:

- **Engagement:** Interpersonal relationships, respect for diversity and participation in school
- Safety: Emotional safety, physical safety, and substance use
- Environment: Physical environment, academic environment, wellness, and disciplinary environment

Standards Aligned System Contact Information:

Logging in to SAS

1. First, click the **Login** link.

2. Type your Email Address and Password and click Submit.

Curriculum Mapping

Curriculum Mapping is a tool that allows educational organizations to outline the scope and sequence of their curriculum, align curriculum to the Pennsylvania Academic Standards, and to make the maps available to district personnel online.

A curriculum map:

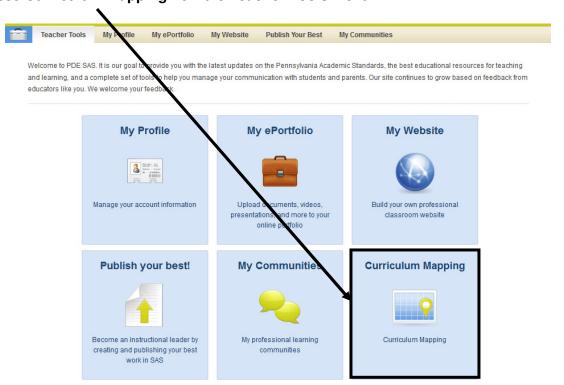

- Captures the content, skills, and assessments taught or administered at each grade level within a school building or district.
- Organizes this information into an easily accessed visual that presents a timeline of instruction by grade level or course.
- Ensures that there is consistency from one grade level to the next, and there is little redundancy in what is being taught at each grade level.

Although the examples shown within this manual may differ from your organization's maps, the steps will be very similar.

1. Click **Teacher Tools** in the upper-right hand corner of any page in **SAS**.

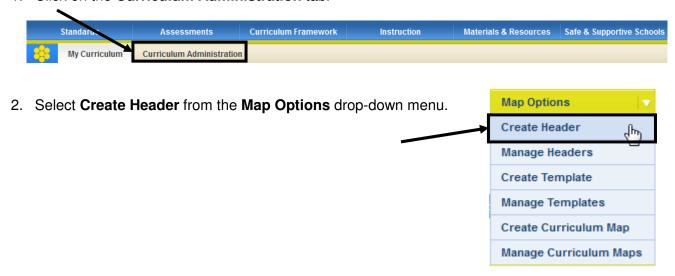

2. Choose Curriculum Mapping from the Teacher Tools menu:

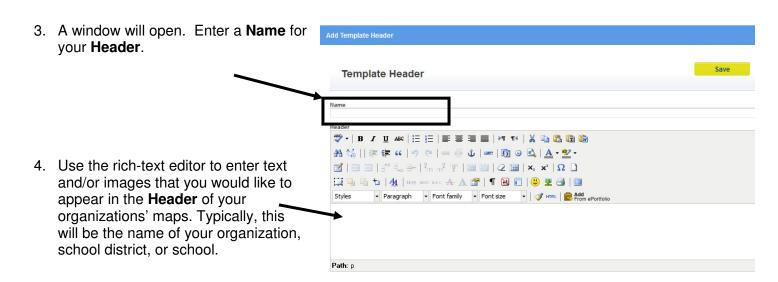

Creating a Template Header

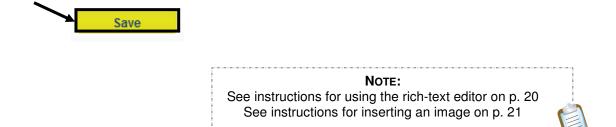

Create a **Header** for your organization's **Curriculum Maps**.

1. Click on the Curriculum Administration tab.

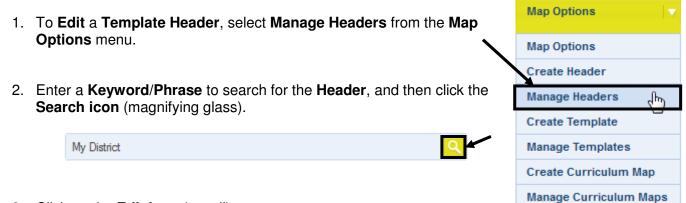

4. Click the Save button.

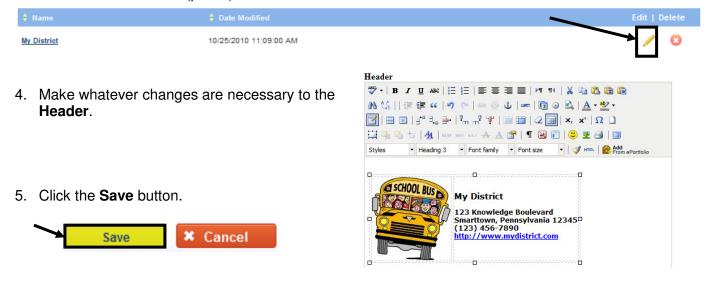

5. The **Template Header** will be added to the list of available **Headers**.

Edit a Template Header

3. Click on the Edit icon (pencil).

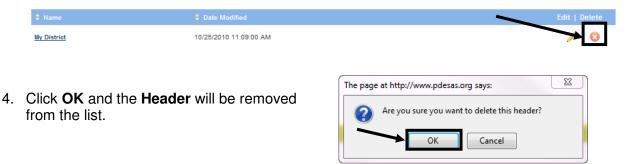

Delete a Template Header

- To Delete a Template Header, select Manage Headers from the Map Options menu.
- 2. Enter a **Keyword/Phrase** to search for the **Header**, and then click the **Search icon** (magnifying glass).

My District

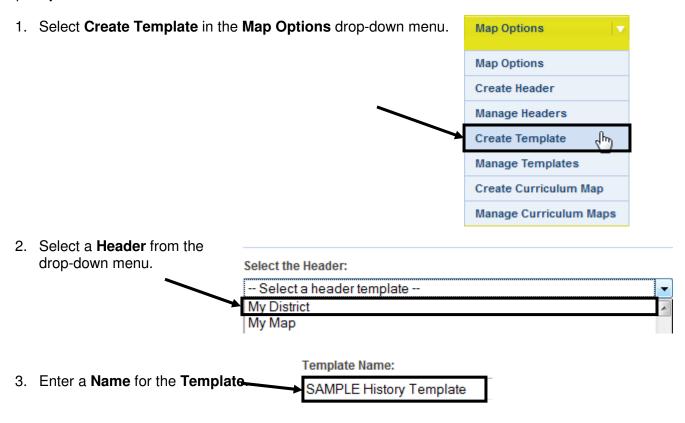

3. Click on the **Delete icon** (X).

Creating a Template

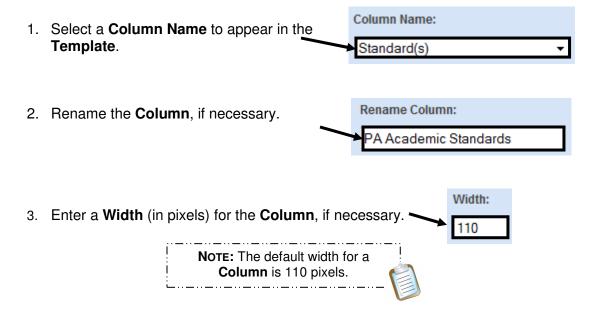

Determine a format for your organization's **Curriculum Maps**, standard **Template(s)** that will be used to develop **Maps**.

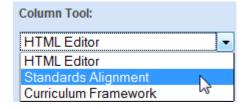

- 4. You will also have an opportunity to choose whether **Standard** descriptions (wording) will appear in maps created from the template. Check the box to have them appear. If the box is unchecked, only the **Standard** codes will appear.
 - Show the Standard description along with the Standard code.

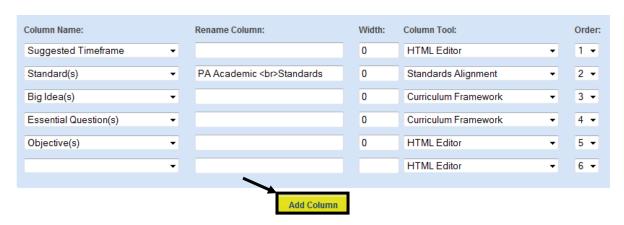

Adding Columns to the Template

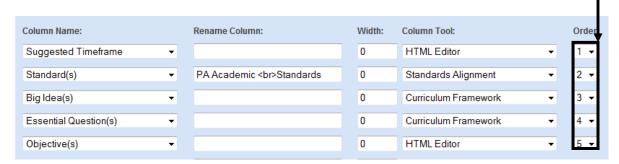

- 4. Select the **Column Tool** appropriate for the **Column**.
- **HTML editor** Allows you to enter and format text and images using the rich-text editor, as well as to include items from an **ePortfolio**.
- Standards Alignment Allows you to select and align Standards and Eligible Content statements.
- Curriculum Framework Allows you to select and align Big Ideas, Essential Questions, Concepts, and Competencies.

5. Repeat steps 2-5 to insert additional Columns. Use the Add Column button to add a place for additional **Columns**, if necessary, and then click **OK**.

6. Once you have created multiple **Columns**, you may wish to reorder them by using the **Order** drop-down menu.

7. Click the Save Template button, and then click Ok. Save Template Close

Identify Grade Levels/Subject Areas/Courses/Time Frames for the Template

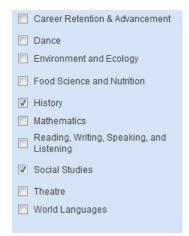

1. Scroll down to the **Grade Levels/Subject Areas/Courses/Time Frames** area.

2. Select the **Grade Level(s)** appropriate for the **Template**.

3. Select the **Subject Area(s)** appropriate for the **Template**.

4. Select the **Course(s)** appropriate for the **Template**.

5. Select the **Time frame(s)** appropriate for the **Template**.

6. Click the Save Template button, and then click Ok.

Close

Granting Access to the Template

- 1. Select the Organization(s) you wish to have access to the Template.
- 2. Click the **Save Template** button, and then click **Ok**.

3. Click the Close button to return to the Curriculum Administration tab.

| Public |

Allen Ethan School

Managing the Templates

Once a **Template** has been created, there are several options available to you by selecting **Manage** Templates from the Map Options drop-down menu. These options will allow you to Edit, Print, Copy, and Delete the Template, as well as to be able to place it Online so that others may view it.

To Edit a Template

- Click the **Edit Template icon** (). This will open the **Template** for revision.
- Be sure to click the **Save Template** button to save any changes.

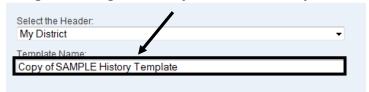

To Print a Template

- Click the **Print icon** ().
- Use the **Print** options in your web browser to print the map.
- Close the window/tab in your browser to return to the **Create/Edit Templates** tab.

To Copy a Template

- Copying a Template can save time if you are creating several Templates with the same Fields. Click the Copy icon (), and then click OK.
- A copy of the **Template** will be opened. Edit the **Template** as necessary, and then Save your changes.
- Do not forget to change the **Template Name** when you are editing, to avoid confusion.

To Delete a Template

- Click the **Delete icon** () in the **Options** column.
- Click **OK**, and the map will be permanently deleted.

Note: You may only Delete a Template if there have been no Curriculum Maps created with it, and the **Template** is marked **Offline**.

Once **Maps** have been created with it, and/or the **Template** is marked **Online**, the **Delete icon** will no longer appear as an option.

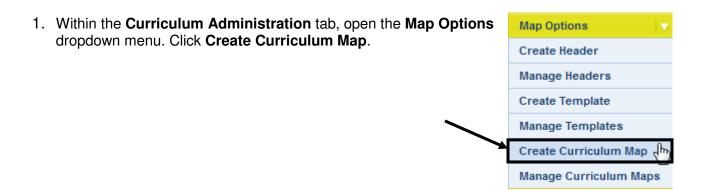

To Place a Template Online or Offline

- When a **Template** is ready to be shared with others, it needs to be placed online. As you are creating the **Template**, only you are able to view it. To make it available to others in your organization, click the **Online/Offline icon** () in the **Options** column.
- The Online/Offline icon will uncover (□), indicating that the Template can be viewed by others. To switch it back to Offline, click the Online/Offline icon again.

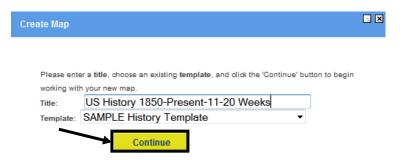

Creating Curriculum Maps

Once **Templates** have been made available **Online**, specified users within an organization may begin creating **Curriculum Maps**.

 Enter a descriptive **Title**, and select a **Template** to begin creating a **Curriculum Map**.

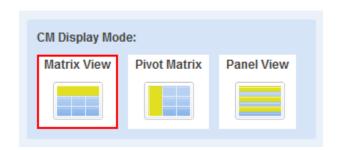

3. Click Continue.

4. The Curriculum Map will open in a new tab/window, the Curriculum Map Editor.

5. Select a CM Display Mode:

- <u>Matrix View</u> Field names appear across the top of the Map.
- <u>Pivot Matrix</u> Field names appear along the left side of the Map.
- <u>Panel View</u> Field names appear within the fields, from the top to bottom of the screen.

Note: Users can also switch views within the **Maps**, by clicking on **Display Mode**.

Entering Data within the Map

1. The column headings for the **Map** were determined when the **Template** was created – they cannot be changed.

When clicking on a cell that will show Standards, the **Standards Alignment Tool** will open.

Entering Data in a Cell Using the Standard Alignment Tool

 A new window will open. If an alignment cell was chosen click Modify Alignment.

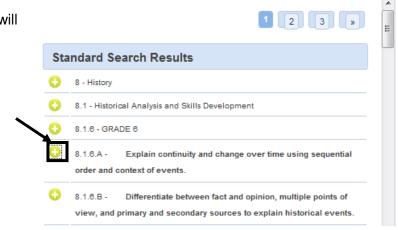

- 2. You may choose to search the **Standards** by **Keyword**, **Subject/Grade**, or **Course**:
 - Search by Keyword Enter a **Keyword**, or phrase, into the search tool.
 - Search by Subject/Grade -Select a Subject and Grade Level from the drop-down menus.

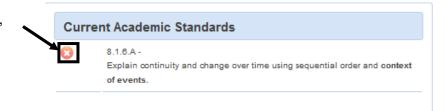

- **Search by Course** Select a **Course** from the drop-down menu.
- Search by School-Wide Area of Focus Select an Area of Focus from the drop-down menu.
- 3. Use the checkboxes to select level(s) of alignment. Then, click **Search**.

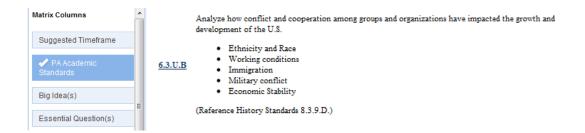

4. The **Standards** that match your criteria will appear. To select a **Standard**, click the Add icon (plus sign) to the left of it.

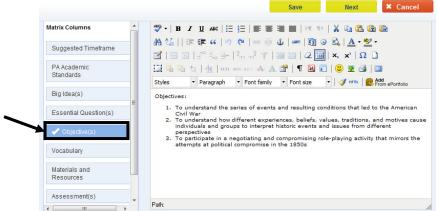

To remove a Standard from the list, click the X to the left of it.

5. Click the **Save** button when finished. The **Standards** will populate the window, as well as in the appropriate cell within the Map.

6. The window that contains the Standards Alignment Tool will stay open. To move to another Matrix Column, click its name.

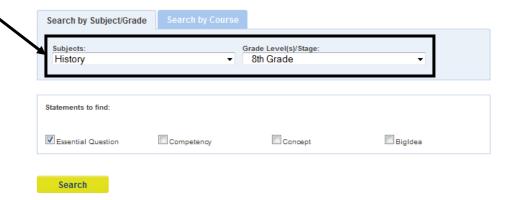

Adding Statements from the Curriculum Framework

1. If you are aligning to the **Curriculum Framework** (e.g., Big Ideas, Essential Questions), click **Modify Alignment**. Scroll down to the Search Curriculum Framework section.

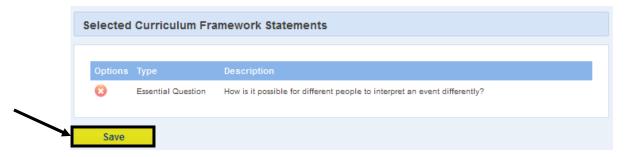

Modify Alignment

2. Make sure the **Search by** Subject/Grade tab is selected. Select a subject and then a grade.

3. Use the checkboxes to select type (s) of statements.

- 4. Statements that match your criteria will appear below, click the **Add icon** (plus sign) to add them to your map. The selected question will appear at top under Selected Curriculum Framework Statements.
- 5. Click Save.

Entering Data in a Cell Using the SAS Rich Text Editor

1. Enter information in all remaining cells using the SAS Rich Text Editor. Use the word processing tool to enter and format text (see p. 20).

2. Click **Save** to place the text in the appropriate cell within the **Map**. Click **Next** to enter information in the next Matrix Column. Close the window when you are finished entering information.

3. Click Add Row Above/Add Row Below to add another row to the **Map**. Continue adding information as necessary, using the steps above.

- 4. To **Reorder** or **Remove Rows**:
 - o To reorder rows, click the arrows in the **Options** column of the Row(s) you wish to move. The Row(s) will move up or down one space with each click.

To remove Row(s), click the Row(s) you wish to delete.

in the **Options** column of the

5. When you are finished adding information to the **Map**, click the **Save** button in the upper-right hand corner of the **Map** and then click Close.

Close

Formatting Text with the SAS Rich-Text Editor:

1. First, enter text you wish to appear in the cell, and then highlight the text you wish to format.

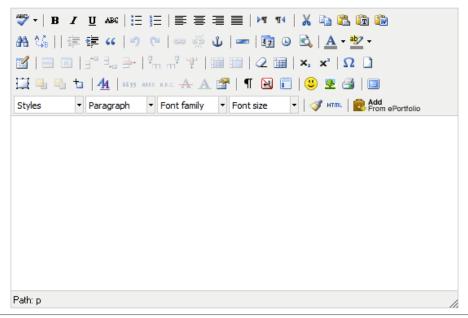

To highlight text on a **PC**:

- Mouse: Move the mouse pointer before the text you wish to select. Holding down the left mouse button, drag the mouse until all text is selected. Release left mouse button.
- Keyboard: Move the cursor with your arrow keys before the text you wish to select. While holding down the shift key, use the right arrow key to move the cursor over your text. When done selecting the word or phrase, release the shift key.

To highlight text on a **Mac**:

- Mouse: Move the mouse pointer before the text you wish to select. Holding down the mouse button, drag the mouse until all text is selected. Release the mouse button.
- Keyboard: Move the cursor with your arrow keys before the text you wish to select holding down the shift key, use the right arrow key to move the cursor over your text. When done selecting the word or phrase, release the shift key.
- 2. Click an icon on the toolbar to apply the formatting. Using the toolbar, you have many of the same formatting options as a word processor, including:
 - Bold, italics, and underline
 - Bullets and numbers
 - Text alignment
 - Undo and redo
 - Spell check

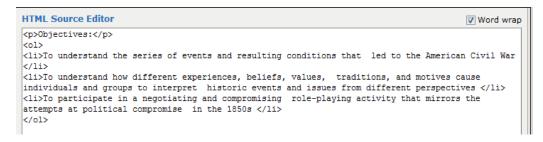

Note: For bulleting and numbering, if you want multiple list items, put a hard return after each item, so they each appear on their own

Formatting HTML Code with the SAS Rich-Text Editor:

Users who wish to enter and edit HTML code will need to click on the **HTML icon** in the bottom toolbar of the rich-text editor.

That will reveal all HTML coding:

To save any changes, click the **Update** button.

Inserting ePortfolio Items within a Cell

Users have the ability to take items saved in their ePortfolio and add them to any cell within the Map.

1. Click the **ePortfolio Manager** icon on the bottom toolbar in the rich-text editor.

2. Click on the folder where the item is stored. The item within the folder will display on the right side of the tool.

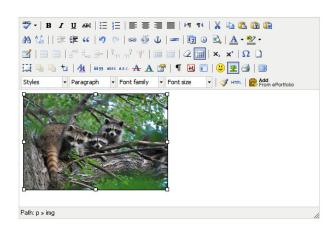

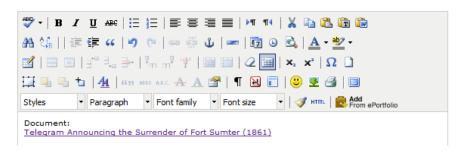

3. Check the item you wish to insert, and click **Insert Selected**.

4. The item you selected will be inserted on the Page.

In this case, the image can be resized by clicking on it, and dragging the handles.

Inserted files, bookmarks to web sites, or bookmarks to items within SAS will appear as hyperlinks.

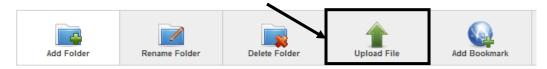

Uploading ePortfolio Items

Users can also Upload File(s) directly to the ePortfolio within the ePortfolio Manager.

1. Click the **ePortfolio Manager** icon on the bottom toolbar in the rich-text editor.

2. Click on the **Upload File** button to add files to the **ePortfolio**.

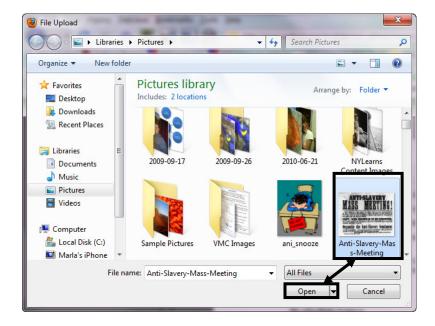

3. Select a **Folder** to add the file(s) to.

4. Click Browse to locate your file where you have previously saved it.

My ePortfolio Folders Images Remove Browse Add File

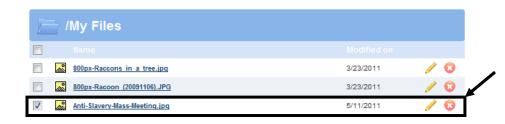

5. Locate the item, select it, and click Open (or double click).

NOTE: To ensure success when moving files between

platforms (Mac to PC) include the proper file extension when you first save the file.

- 6. To save time, users can elect to upload multiple files to a folder at one time. Click the Add File button.
- 7. To delete a file prior to upload, click **Remove**.
- 8. Click the **Upload** button. It may take a few seconds for the file(s) to upload.

- Place a checkmark in the square to the left of the file.
- 10. Click Insert Selected.

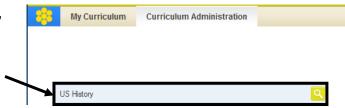

- 11. The item will appear in the rich-text editor. Click the Save button to add the item to the Map.
- 12. The item will appear within the appropriate cell on the Map.

Identify Subjects/Courses/Grade Levels for the Map

1. From the Curriculum Administration tab, use the **Keyword Search** to locate your Мар.

2. Click the **Edit icon** (pencil) to open the **Map**.

3. Scroll down to the Edit CM Information area, and locate the Subject/Courses/Grade Levels tab.

4. Select the **Grade Level(s)** appropriate for the **Map**.

5. Select the **Course(s)** appropriate for the **Map**.

6. Select the **Subject Area(s)** appropriate for the **Map**.

7. Select the **Timeframe(s)** appropriate for the **Map**

8. Click the **Save** button, and then click **Ok**.

Additional Information

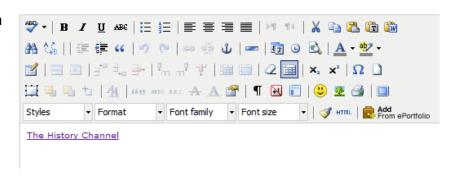

1. Click the **Additional** Information tab and then click Add Additional Info.

2. This will create an **Additional Field** that will appear at the bottom of the Curriculum Map. Enter a Label (e.g., Technology Integration).

3. Enter information that you wish to appear in that **Field**. Use the word processing tool to enter and format text (see p. 20). Items saved to your ePortfolio can also be included in the cell.

4. Decide whether you would like the **Additional Field** to appear at the Top or Bottom of the Map.

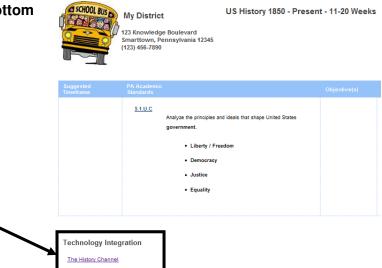

5. Click the **Save** button, and then click **Ok**.

- 6. The **Field** will be added to the list on the **Additional Information** tab.
 - To **Edit** the **Field**, click the **Edit icon** (pencil)
 - To **Delete** the **Field**, click the **Delete icon** (X)
 - Once you have created multiple fields, you may use the up/down arrows to re-order them.

| Name | Last Updated | Shown on the | Options |
|------------------------|-----------------------|--------------|---------|
| Technology Integration | 5/11/2011 12:49:00 PM | Bottom | 11/0 |

7. The **Field** will also appear at the **Bottom** or Top of the Curriculum Map.

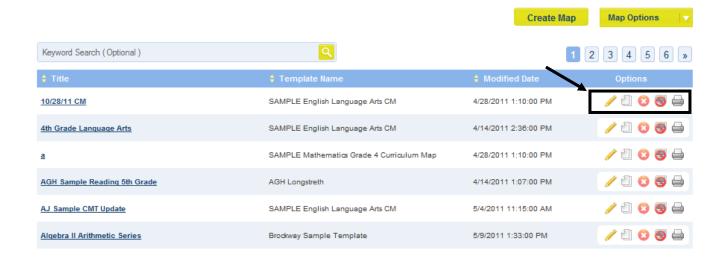

Granting Access to the Map

1. Click the Availability tab. Additional Information Availability Public 2. Select the Organization(s) you wish to have access to the Map. Philadelphia City School District Academy at Palumbo Adaire Alexander School 3. Click the Save button, and then click Ok. Click Close to return to the Curriculum Administration tab. Alcorn James School Allen Dr Ethel School Close Save

Managing the Maps

Once a Curriculum Map has been created, there are several options available to you in the Curriculum Administration area of the tool. These options will allow you to Edit, Copy, Delete, place the Map Online/Offline, and Print the Map.

To Edit a Map

- Click the Edit icon (), in the Options column. This will open the Map for revision.
- Be sure to click the Save button to save any changes.

To Copy a Map

- Copying a Map can save time if you are creating several Maps with the same Fields.
 Click the Copy icon () in the Options column, and then click OK.
- A copy of the Map will be opened. Edit the Map as necessary, and then Save sour changes.

Do not forget to change the Map Title when you are editing, to avoid confusion.

To Delete a Map

- Click the Delete icon () in the Options column.
- Click **OK**, and the **Map** will be permanently deleted.

To Place a Map Online or Offline

- When a **Map** is ready to be shared with others, it needs to be placed online. As you are creating the **Map**, only you are able to view it. To make it available to others in your organization, click the **Online/Offline icon** () in the **Options** column.
- The Online/Offline icon () will uncover, indicating that the Map can be viewed by others. To switch it back to offline, click the Online/Offline icon again.

To Print a Map

Click the View & Print icon () in the Options column.

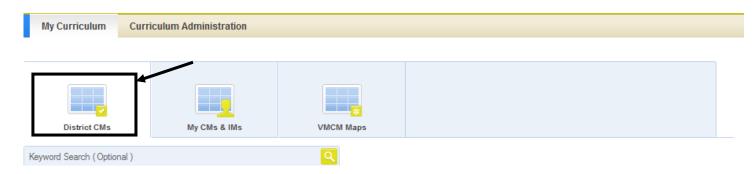

- This will open a print preview version of the Map. Click Print in the upper-right corner of the screen to open the print dialog box.
- Close the window/tab in your browser to return to the **Options** column.

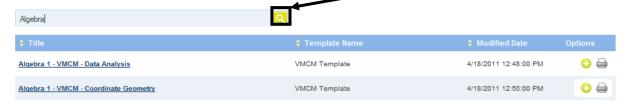

Accessing the Maps

Once **Curriculum Maps** have been created, users may save them to their account, and create personalized **Instructional Maps** to guide their teaching.

1. The **District CMs** tab will list all of the matrices that have been created for your organization:

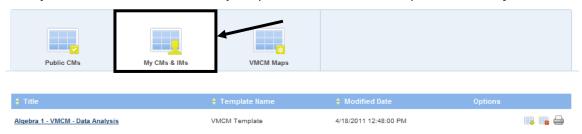

2. To sort by specific **Titles**, **Grade Levels**, or **Subject Areas**, enter a term in the **Keyword** field and click the **Search icon** (magnifying glass) button.

3. To include a **Map** in your account, click the **Add to My CMs icon** (on the right side of the screen.

4. The Maps selected will be added to your personal curriculum map list on the My CMs & IMs tab.

Creating an Instructional Map (IM)

Creating an **Instructional Map** allows you to customize the **Curriculum Map** for your use by editing the title and adding notes for teaching.

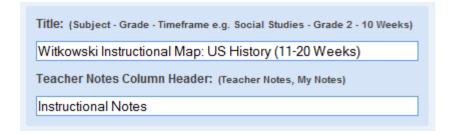

1. To create an **Instructional Map**, click the **Create a New Instructional Map icon** on the right side of the screen.

2. The map will be added to your list of **Instructional Maps** at the bottom of the tab. You can customize the map for your own use by editing the title, and adding notes for teaching. Click the **Edit icon** (pencil) to begin personalizing the IM.

My Instructional Maps My IMs lists your personalized Instructional Maps (IM). You can customize the curriculum matrix for your use by editing the title and adding notes for teaching. Title Modified On Algebra 1 - VMCM - Data Analysis - IM 5/11/2011 1:48:00 PM

3. On the **Instructional Map Title** tab, edit the **Title** for the **IM**, and the **Teacher Notes Column Header** (if necessary).

- 4. Select an IM Display Mode:
 - <u>Matrix View</u> Field names appear across the top of the Map.
 - <u>Pivot Matrix</u> Field names appear along the left side of the Map.
 - <u>Panel View</u> Field names appear within the fields, from the top to bottom of the screen.

5. Click the Save button, and then click Ok.

Adding Notes for Teaching

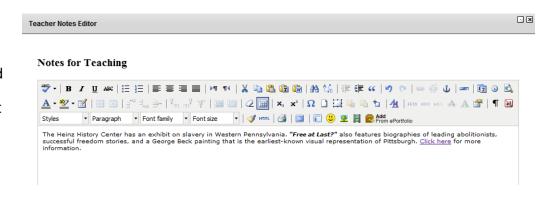

Add personal notes, resources, etc. to enhance the **Instructional Map**.

1. To add notes to any **Row** on the **IM**, click within the **Notes for Teaching** column.

Note: Your column may be titled differently, if you elected to rename it.

2. Enter information in the cell using the **SAS Rich Text Editor**. Use the word processing tool to enter and format text (see p. 20). Items saved to your ePortfolio can also be included in the cell.

3. Click **Save** to enter the text into the **Notes for Teaching** cell within the map.

4. Click the **Back** button (at the top right of the window) to return to the My CMs & IMs tab.

Managing the Instructional Maps

Once an Instructional Map has been created, there are several options available to you. These options will allow you to Edit, Share, Copy, or Print the IM, as well as to be able to Delete the IM.

To Edit an IM

- Click the **Edit icon** () in the **Options** column. This will open the **IM** for revision.
- Be sure to click the Save button to save any changes.

To Share an IM

- Click the Share icon (²) in the Options column.
- Enter email addresses for individuals you wish to share your IM with. Separate addresses with a comma.

Sending To: joe@email.com, sue@email.com, mary@email.com

- An email will be sent to each individual listed in the Sending To: box. The text of the email will appear in the Rich Text Editor at the bottom of the tab. You can make changes to the text by typing within the Editor.
- When the message is complete, click Share IM. People will receive the invitation via email, including a link to your IM.
- Click Ok to return to the My CMs tab.

To Copy an IM

- Copying an IM can save time if you are creating several IMs with the same Map. Click the Copy icon () in the Options column, and then click OK.
- A copy of the IM will be added to the list. Edit the IM as necessary, and then Save your changes.
- Do not forget to change the IM Title when you are editing, to avoid confusion.
 Title: (Subject Grade Timeframe e.g. Social Studies Grade 2 10 Weeks)
 Witkowski Instructional Map: US History (11-20 Weeks) Copy

• Stand

To Delete an IM

- Click the **Delete icon** () in the **Options** column.
- Click **OK**, and the **IM** will be permanently deleted.

To Print an IM

- Click the **Print icon** () in the **Options** column.
- This will open a print preview version of the IM. Click Print Friendly Version in the upper-right corner of the screen to open the print dialog box.
- Close the window/tab in your browser to return to the **Options** column.
